JURISDICTION AND VENUE

21. This is an action for patent infringement arising under the patent laws of the United States, Title 35 United States Code.

22. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

23. Personal jurisdiction exists over each of the Defendants because each Defendant has sufficient minimum contacts with this forum as a result of business conducted within this State and this District or directed thereto, and subsidiaries registered to do business in this State.

24. Personal jurisdiction also exists specifically over each of the Defendants because each, directly or through affiliates, subsidiaries, agents, or intermediaries, transacts business in this State or purposefully directed at this State by making, importing, offering to sell, selling, and/or having sold infringing televisions within this State and District or purposefully directed at this State or District.

25. This Court previously found that a number of the Defendants are subject to personal jurisdiction in this forum. *See Canon, Inc. v. TCL Elecs. Holdings Ltd.*, No. 2:18-CV-00546-JRG, 2020 WL 1478356, at *3 (E.D. Tex. Mar. 25, 2020).

26. Personal jurisdiction also exists specifically over each of the Defendants because they have overlapping executives, interlocking corporate structures, and close relationships as manufacturer, importer, and distributor of accused products.

27. To the extent any foreign Defendant is not subject to jurisdiction in any state's court of general jurisdiction, exercising jurisdiction over the defendant in this State and this District would be consistent with due process and this State's long-arm statute in light of facts alleged in this Complaint.

28. In addition, each of the Defendants, directly or through affiliates, subsidiaries, agents, or intermediaries, places infringing televisions into the stream of commerce knowing they will be sold and used in this State, and economically benefits from the retail sale of infringing televisions in this State. For example, Defendants' products have been sold and are available for sale in this District at retail stores, and are also available for sale and offered for sale in this District

through online retailers. Defendants also advertise their infringing products to consumers in this State and this District through the TCL.com website. *See, e.g.*, <https://www.tcl.com/us/en/catalog/home-theater>.

29. Venue is proper in this District pursuant to 28 U.S.C. §§ 1391(b), (c) and (d) and 1400(b).

30. Venue is proper over Defendants [TCL Electronics Holdings Ltd.](http://TCL.com) (f/k/a [TCL](http://TCL.com) Multimedia Technology Holdings, Ltd.); [TCL Industries Holdings Co., Ltd.](http://TCL.com); [TCL Industries Holdings \(H.K.\) Limited](http://TCL.com); [TTE Corporation](http://TCL.com); [TCL Moka International Limited](http://TCL.com); [TCL Moka Manufacturing S.A. de C.V.](http://TCL.com); [TCL King Electrical Appliances \(Huizhou\) Co. 31. On information and belief, venue is proper over Defendant [TTE Technology, Inc.](http://TCL.com) at least because it has committed acts of direct and/or indirect infringement in this District, has a regular and established place of business in this District, and has transacted business in this District, including offering to sell, selling, having sold and/or importing televisions which infringe at least one of the patents-in-suit.

32. Defendant [TTE Technology, Inc.](http://TCL.com) has previously availed itself of courts in the Eastern District of Texas, including voluntarily submitting to jurisdiction and venue in this forum for purposes of a patent litigation. *See, e.g.*, *American Patents LLC, v. TCL Corp. et al.*, No. 4:18-cv-00767, Dkt. 46 at 2 (E.D. Tex., Feb. 20, 2019) (“[TCL King Electrical Appliances \(Huizhou\) Co. COUNT I – INFRINGEMENT OF U.S. PATENT NO. 7,982,803

75. LGE realleges and incorporates by reference the allegations set forth in paragraphs 1 through 74.

76. Defendants are, and have been, on notice of the '803 patent since before the lawsuit was filed. Among the ways that actual notice was provided to Defendants is the email correspondence beginning in November 2018, referenced above, including detailed claim charts sent to Defendants on March 9, 2020.

77. Defendants have been and are currently directly infringing, literally and/or under the doctrine of equivalents, the '803 patent by, among other things, making, using, offering to sell, selling and/or importing, without authority or license from LGE, televisions in this State and District and elsewhere in the United States, which embody, incorporate, or otherwise practice one or more claims of the '803 patent, including at least TCL models having the audio "passthrough" feature found in at least TCL model 50S535.

78. By way of example, the accused TCL televisions infringe at least exemplary claim 6 of the '803 patent as described in detail in the attached claim chart, Exhibit A.

80. For example, TCL's user manuals include instructions to users regarding the selection of an audio setting that infringes at least claim 6 of the '803 patent.

81. As explained above, TCL has had actual knowledge of the '803 patent prior to this Complaint and at least as of the date of this Complaint. In addition, LGE provided TCL with detailed claim charts demonstrating that TCL's televisions infringe the '803 patent on June 4,

2021. Despite having actual knowledge of its infringement, TCL has continued to infringe and induce infringement of one or more claims of the '803 patent.

82. Defendants have and continue to infringe one or more claims of the '803 patent under 35 U.S.C § 271(f)(1) at least by importing components of televisions into this State and District, and then exporting them to foreign countries, including but not limited to Mexico, for assembly into infringing televisions.

83. Defendants' infringement of the '803 patent has been and continues to be willful.

84. Unless enjoined by this Court, Defendants will continue to infringe the '803 patent, and LGE will continue to suffer irreparable harm and harm for which damages are inadequate. Accordingly, LGE is entitled to injunctive relief against such infringement under 35 U.S.C. § 283.

85. As a result of Defendants' infringement of the '803 patent, LGE has been and continues to be irreparably injured with respect to its business and intellectual property rights, and is entitled to recover past damages for such injuries pursuant to 35 U.S.C. § 284.

COUNT II – INFRINGEMENT OF U.S. PATENT NO. 7,839,452

86. LGE realleges and incorporates by reference the allegations set forth in paragraphs 1 through 74.

87. Defendants are, and have been, on notice of the '452 patent since before the lawsuit was filed. Among the ways that actual notice was provided to Defendants is the email correspondence beginning in November 2018, referenced above, including detailed claim charts sent to Defendants on March 9, 2020.

88. Defendants have been and are currently directly infringing, literally and/or under the doctrine of equivalents, the '452 patent by, among other things, making, using, offering to sell, selling and/or importing, without authority or license from LGE, televisions in this State and District and elsewhere in the United States, which embody, incorporate, or otherwise practice one

or more claims of the '452 patent, including at least TCL model 43S435 and other similar 4K or higher resolution televisions, including TCL 4-Series and 5-Series televisions which have an upscaling feature.

89. By way of example, the accused TCL televisions infringe at least exemplary claim 1 of the '452 patent as described in detail in the attached claim chart, Exhibit B.

90. Defendants have and continue to induce infringement of one or more claims of the '452 patent under 35 U.S.C § 271(b) by actively inducing the other Defendants, related entities, retailers, and/or customers to make, use, sell, offer to sell, and/or import, products covered by one or more claims of the '452 patent.

91. For example, TCL's user manual for the 43S435 television instructs users to use the television in a manner that infringes at least claim 1 of the '452 patent.

92. As explained above, TCL has had actual knowledge of the '452 patent prior to this Complaint and at least as of the date of this Complaint. LGE provided TCL with detailed claim charts demonstrating that TCL's televisions infringe the '452 patent on March 9, 2020. Despite having actual knowledge of its infringement, TCL has continued to induce infringement of one or more claims of the '452 patent.

93. Defendants have and continue to infringe one or more claims of the '452 patent under 35 U.S.C § 271(f)(1) at least by importing components of televisions into this State and District, and then exporting them to foreign countries, including but not limited to Mexico, for assembly into infringing televisions.

94. Defendants' infringement of the '452 patent has been and continues to be willful.

95. Unless enjoined by this Court, Defendants will continue to infringe the '452 patent, and LGE will continue to suffer irreparable harm and harm for which damages are inadequate. Accordingly, LGE is entitled to injunctive relief against such infringement under 35 U.S.C. § 283.

96. As a result of Defendants' infringement of the '452 patent, LGE has been and continues to be irreparably injured with respect to its business and intellectual property rights, and is entitled to recover past damages for such injuries pursuant to 35 U.S.C. § 284.

Among the ways that actual notice was provided to Defendants is the email correspondence beginning in November 2018, referenced above, including detailed claim charts sent to Defendants on March 9, 2020.

99. Defendants have been and are currently directly infringing, literally and/or under the doctrine of equivalents, the '311 patent by, among other things, making, using, offering to sell, selling and/or importing, without authority or license from LGE, televisions in this State and District and elsewhere in the United States, which embody, incorporate, or otherwise practice one or more claims of the '311 patent, including at least TCL models 50S435 and 55S20, other similar televisions with a model number ending in 1, 3, 5, 7, or 8, and any televisions that similarly display both icons and preview images for external devices.

100. By way of example, the accused TCL televisions infringe at least exemplary claim 1 of the '311 patent as described in detail in the attached claim chart, Exhibit C.

101. Defendants have and continue to induce infringement of one or more claims of the '311 patent under 35 U.S.C. § 271(b) by actively inducing the other Defendants, related entities,

retailers, and/or customers to make, use, sell, offer to sell, and/or import, products covered by one or more claims of the '311 patent.

102. For example, TCL's user manual for the 50S435 television instructs users to use the television in a manner that infringes at least claim 1 of the '311 patent.

103. As explained above, TCL has had actual knowledge of the '311 patent prior to this Complaint and at least as of the date of this Complaint. LGE provided TCL with detailed claim charts demonstrating that TCL's televisions infringe the '311 patent on March 9, 2020. Despite having actual knowledge of its infringement, TCL has continued to induce infringement of one or more claims of the '311 patent.

104. Defendants have and continue to infringe one or more claims of the '311 patent under 35 U.S.C § 271(f)(1) at least by importing components of televisions into this State and District, and then exporting them to foreign countries, including but not limited to Mexico, for assembly into infringing televisions.

105. Defendants' infringement of the '311 patent has been and continues to be willful.

106. Unless enjoined by this Court, Defendants will continue to infringe the '311 patent, and LGE will continue to suffer irreparable harm and harm for which damages are inadequate. Accordingly, LGE is entitled to injunctive relief against such infringement under 35 U.S.C. § 283.

107. As a result of Defendants' infringement of the '311 patent, LGE has been and continues to be irreparably injured with respect to its business and intellectual property rights, and is entitled to recover past damages for such injuries pursuant to 35 U.S.C. § 284.

113. For example, TCL's user manual for the 50S435 television instructs users to use the television in a manner that infringes at least claim 22 of the '740 patent.

114. As explained above, TCL has had actual knowledge of the '740 patent prior to this Complaint and at least as of the date of this Complaint. LGE provided TCL with detailed claim charts demonstrating that TCL's televisions infringe the '740 patent on June 4, 2021. Despite having actual knowledge of its infringement, TCL has continued to induce infringement of one or more claims of the '740 patent.

115. Defendants have and continue to infringe one or more claims of the '740 patent under 35 U.S.C § 271(f)(1) and (2) at least by importing components of televisions that have no substantial non-infringing uses into this State and District, and then exporting them to foreign countries, including but not limited to Mexico, for assembly into infringing televisions.

116. Defendants' infringement of the '740 patent has been and continues to be willful.

117. Unless enjoined by this Court, Defendants will continue to infringe the '740 patent, and LGE will continue to suffer irreparable harm and harm for which damages are inadequate. Accordingly, LGE is entitled to injunctive relief against such infringement under 35 U.S.C. § 283.

118. As a result of Defendants' infringement of the '740 patent, LGE has been and continues to be irreparably injured with respect to its business and intellectual property rights, and is entitled to recover past damages for such injuries pursuant to 35 U.S.C. § 284.

124. For example, TCL's user manual for the 75R635 television instructs users to use the television in a manner that infringes at least claim 14 of the '346 patent.

125. As explained above, TCL has had actual knowledge of the '346 patent prior to this Complaint and at least as of the date of this Complaint.
